

## WELCOME

### San Leandro Is an Age-Friendly City Now

- Our Action Plan provides a roadmap of recommendations to make our city livable for older adults as well as intergenerational residents. It's our guide and our vision for the future.
  - It tells a beautiful and vibrant story of where we are at present and where we would like to be. The future looks bright.
  - The Senior Commission started working on the project in 2018.
  - It is a collaboration of our Senior Commission, City Staff, and the residents of our city.
  - The Letter of Consent given by former Mayor Pauline Russo Cutter.
  - We were admitted in the WHO/AARP Network of Cities and States in November 2021.
  - Our present Mayor Juan Gonzalez III, the City Council and the City staff have given unstinted support for this project. We are appreciative of this support.
  - The Council made a resolution to accept the Action Plan on \_\_\_\_.
  - We are proud to have the Resolution on the Age-Friendly Initiative, deposited in the Time Capsule.
  - We owe our success journey of this project to the former Seniors Commissioners as well as to our present Commissioners (photo)
- Please enjoy reading our Action Plan.
