

NAVIGATION AND DROP-IN CENTER

Interim Housing Navigation Center

- Since opening in April 2025 the Navigation Center has helped **12** clients move into permanent supportive housing
- These early outcomes demonstrate the effectiveness of the program's housing-focused approach and sustained engagement with residents
- The program has also been successful in connecting clients to employment opportunities and preparing clients for long-term success in independent living through workshops such as Budgeting and Housing Search

The Drop-In Center,

- Opened in June 2025 and has since served **295** unduplicated individuals.
- Drop-in offers a safe place to rest, eat, shower, do laundry, and meet with outside providers, helping clients stay engaged in services and move toward housing

**Data updated as of 02/01/26*

NAVIGATION AND DROP-IN CENTER

Success stories:

- A client that was housed in December before Christmas went from his lease signing to a job interview and started work shortly after exiting the shelter.
- Christmas day at the center: 21 clients came through the drop in center and were all provided a gift (hygiene kit and socks). Both drop in and shelter clients had similar responses:
 - “Thank you, I can’t even remember the last time I received a gift.”
 - “Thank you, I didn’t expect to receive anything this year.”

Many clients expressed their gratitude to staff/Building Futures for being here and open on a holiday allowing them to come inside on a rainy Christmas day.
