SECTION 5 - PERFORMANCE STANDARDS

5.1 Response Times

City's response time for requests for emergency medical services shall be dispatched according to MPDS categories and shall meet the following performance standards:

- a. City's Response Times shall be calculated on a monthly basis for reporting purposes to determine performance using Percentile (Fractile) Response Time measurements. Response Times for departments with low call volume (less than 100 calls per month) shall be calculated once the City has responded to 100 calls.
- b. City's Response Time for Services in the Primary Service Area shall meet the requirements in Table A, below. City shall make a best effort to achieve a 90% performance level based upon the Response Times in TABLE A - PERSONNEL AND RESPONSE TIME REQUIREMENTS.
- c. A City not using MPDS shall respond to all calls using the Priority 1 Response Times.

| MPDS CATEGORY: | Response Time |
|----------------|---------------|
| Priority 1 | 08:30 min. |
| Priority 2 | 08:30 min. |
| Priority 3 | 08:30 min. |
| Priority 4 | N/A |

TABLE A - PERSONNEL AND RESPONSE TIME REQUIREMENTS

5.2 **Response Time Measurement**

- a. Response Time shall be measured in minutes and integer (whole) seconds from the time the call is received by City from the dispatch center until arrival at the Incident Location by the FRALS, or until the call is cancelled by a public safety agency or dispatch center.
- b. City's FRALS shall report on-scene time or staging location time to its dispatch center immediately upon arrival at the scene/staging location.

5.3 **Calculating Changes in Call Priority**

- a. **Upgrades** - If an assignment is upgraded prior to the Arrival at Incident of the FRALS (e.g. from a Priority 4 to Priority 2), City's performance shall be calculated based on the shorter of:
 - Time elapsed from dispatch to time of upgrade plus the higher priority Response Time standard, or,
 - The lower priority Response Time standard.
 - In all such cases, the electronic PCR shall indicate the reason why the priority status was upgraded to provide the ability for quality assurance/quality improvement review.
- b. **Downgrades** - If a call is downgraded by dispatch, prior to arrival on scene of the FRALS (e.g. from a Priority 2 to a Priority 4), City's performance shall be determined by:
 - If the time of the downgrade occurs after the FRALS has exceeded the higher priority Response Time standard, the higher priority Response Time standard shall apply; or,
 - If the time of the downgrade occurs before the FRALS has exceeded the higher priority Response Time standard, the lower priority Response Time standard shall apply.
 - In all such cases, the electronic PCR shall indicate the reason why the priority status was downgraded to provide the ability for quality assurance/quality improvement review.
- c. **Canceled Calls**

If a call is canceled prior to the FRALS Arrival at Incident, the performance shall be calculated based on the elapsed time from dispatch to the time the call was canceled.

In situations where the FRALS unit has responded to a location other than the Incident Location (e.g. staging areas for hazardous materials/violent crime incidents, non-secured scenes, or where rugged terrain precludes access), Arrival at Incident shall be the time the FRALS arrives at the designated staging location or the nearest public access point to the patient's location.

5.4 **Performance Reporting Exemptions**

- a. City may request that a late response be excluded from the calculation of Performance Reporting ("an Exemption"), if that call falls into one of the following categories:
 - A declared Multi-Casualty Incident ("MCI") or disaster that the County EMS Director determines has had a material impact on City's resources.
 - There was a delay because information relayed by the Medical Dispatch Center was substantially incorrect so as to prohibit timely arrival at the call.
- b. Request for an Exemption must be in writing and received by the County EMS Director within ten (10) calendar days following the end of the month in which the event occurred. Performance Reporting Exemptions may be granted by the County on a per call basis, following review and investigation by the County. Calls that are approved as an Exemption shall not be included in the calculations for Performance Reporting. Such requests must include all of the following:
 - Detailed description of the circumstances causing the response delay

 - Dispatch agency name
 - Unit number
 - Originating location of responding unit
