The City of San Leandro needs your help
to shape the Recreation and Parks Master Plan!

San Leandro
BETTER TOGETHER, OUTSIDE

The Recreation and Parks Master Plan will set a vision for San Leandro's park system, aligning with the City's General Plan and core values. It aims to balance open space, enhance existing parks, diversify recreation, explore joint-use agreements for expanding acreage, and create memorable community spaces.

San Leandro Youth Advisory Commission members, please assist us in shaping and promoting opportunities to engage with the community! Your voice and connections can help gather diverse input on park system visions. We're asking for your help **participating in workshops and surveys, spreading the word, and sharing your insights throughout the Recreation and Parks Master Plan process.**

We want to hear from you!
