

# Public Hearing for Proposed Dissolution of the San Leandro Hillside Geological Hazard Abatement District (GHAD)

Meeting for the San Leandro Hillside GHAD Board

# How did we get here?

# Next Steps

1 Conduct Public Hearing, receive comments and total objections to GHAD dissolution received up to time of hearing.

2 If total objections is more than 50% then:

Board cannot move forward with consideration of the Resolution Ordering Dissolution.

\* Foot Note: Calculation of objections is based on weighted assessed value of real property.

# Next Steps

**3 If total objections is 50% or less, then:**

**Board can move forward with consideration of the Resolution Ordering Dissolution and may order dissolution if it finds one or more of the four required factors.**

**\* Foot Note: Calculation of objections is based on weighted assessed value of real property.**

# Four Factors to Consider

Board must make a finding of at least one of the following factors:

1. Corporate powers have not and will not be used and District holds no significant liquid assets;

2. Board adopts resolution by unanimous vote, or majority of property owners vote, approving dissolution;

3. District has not levied or collected any assessments and holds no significant liquid assets; or

4. District has not complied with a material condition of resolution forming the GHAD.
