CITY OF SAN LEANDRO CAP FUNDING

Impact and Program Update

Overview of CAP-Funded Services

- Food Distribution
- Clothing Assistance

- Housing and Social Service I&R
- Health Care Application Assistance
- Senior Support Programs

These services provide immediate stabilization for low-income households in City of San Leandro

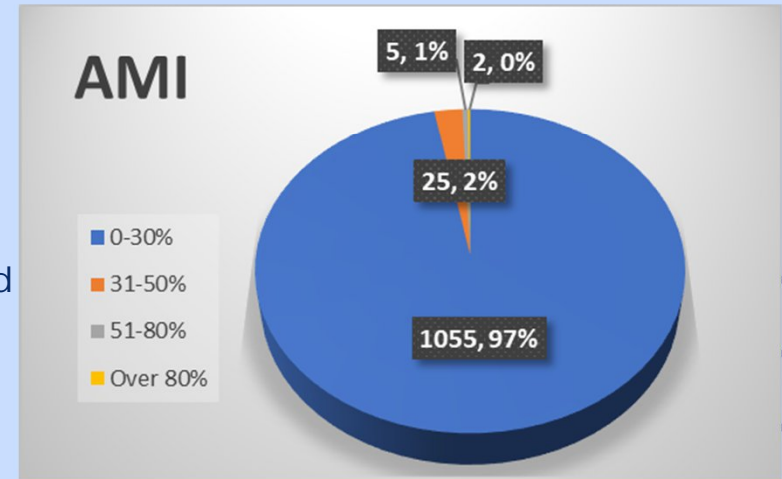

Unduplicated San Leandro residents served

July 1, 2025 to December 31, 2025

2,474, unduplicated San Leandro residents served (1,087 households)

7,062 visits (13,859 duplicated clients)

We are seeing significant shifts in the community:

- Increase in seniors requiring ongoing support
- Growth in Asian and non-English-speaking populations
- Rising cost of living impacting working families
- More clients facing housing instability and risk of homelessness
- Demand for services continues to grow year over year.

Continued CAP funding allows us to:

- Sustain current service levels
 - Prevent homelessness and housing instability
 - Support vulnerable populations, including seniors and families
 - Maintain critical access to food and other supportive services

SCHOOL BASED HEALTH CENTERS

SBHCS PUT HEALTH CARE WHERE STUDENTS ALREADY SPEND MOST OF THEIR TIME – AT SCHOOL.

Enhanced access to health care by bringing it directly to where students and families are and conducting active school-based outreach to connect students with care.

Stronger prevention and population health by connecting clinical care with public health approaches such as group and classroom education, school wide screenings and prevention programs, or efforts to address the social determinants of health.

Intensive support for the highest need students by being present on a daily basis to manage chronic disease, address behavioral health issues, deal with crises, and help students and families access resources.

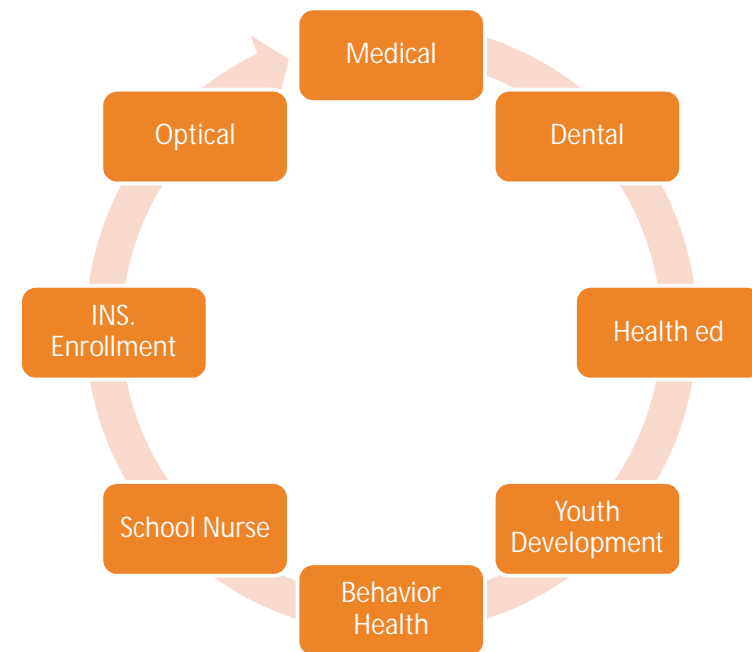

Support for the school's mission to improve academic achievement by working together to address absenteeism, school climate, and classroom behavior and performance.

Integration into the health care system by communicating and coordinating care with other providers and payers.

Research has shown, and teachers and educators intuitively know, that healthier children are better students because they are able to focus in class and are not distracted by hunger, pain, stress, or a chronic illness.

WELLNESS COLLABORATIVE - INTEGRATED MODEL

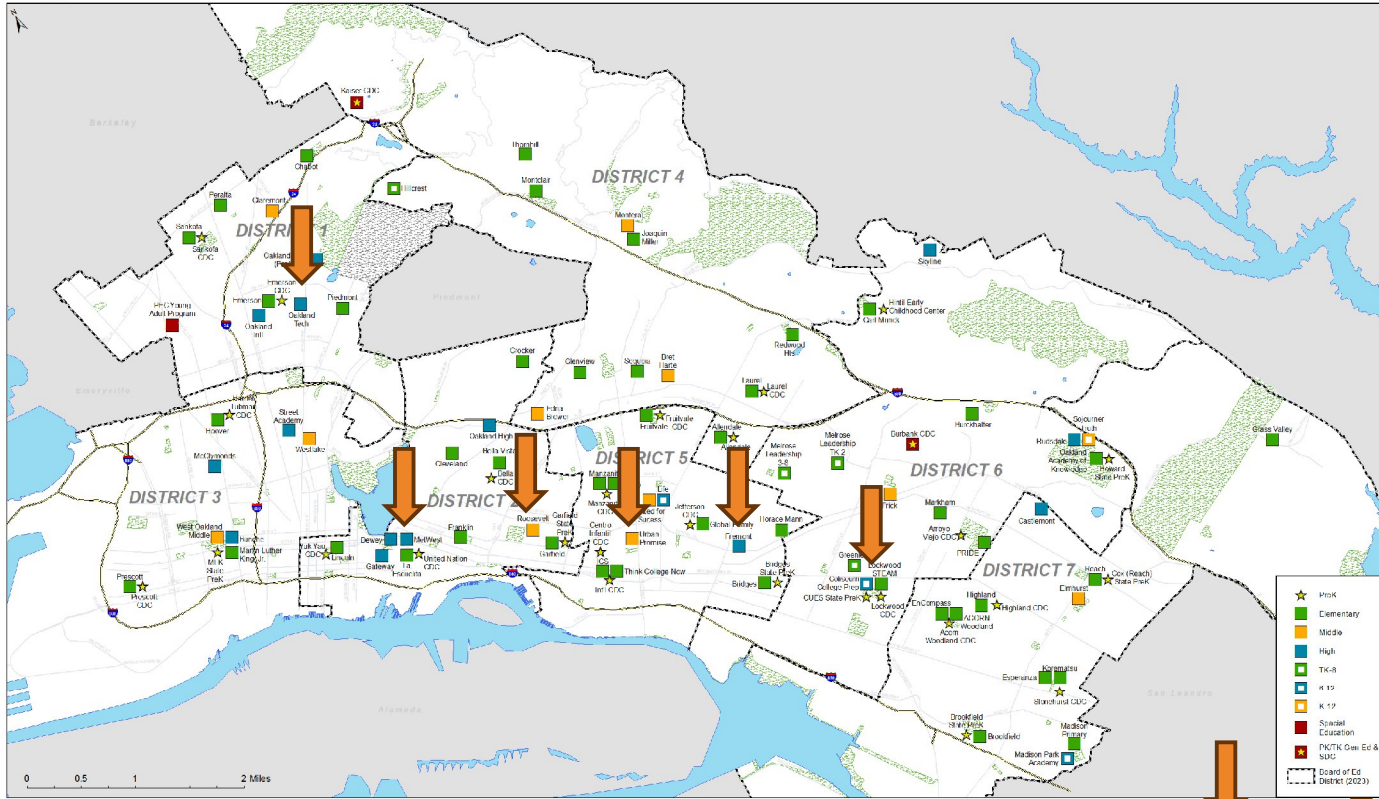

- Create an effective collaboration of services including medical, dental, behavioral / mental health, health education, optical, school nursing, and youth development opportunities within a safe, respectful and youth-centered environment.
- We honor confidentiality, and we do not charge any fees to students for any of our services

HOW DO I GET MY PRESCRIPTION?!

■ For many students, the School Based Health Center is where the journey of navigating their own health begins.

■ Flyers like these remind you:
you are not alone.

We are here to support the launch!

1. **Go to the pharmacy** you confirmed during your appointment (usually at the back of the store)
2. **Wait in line** to be helped
3. Say something like: **“Hello, I’m here to pick up my prescription”**
 - a. **They might ask you for your insurance card.** If you don’t have it, **your insurance # should be ok** (you can get this from your insurance card, ask for it at the clinic, use FPACT card, etc.)
 - b. **They might ask you for an ID,** but this should only be required if you are picking up controlled medications like opiates/ADHD meds (**any form of ID with your DOB should be ok**)
4. **They will bring you your prescription** at the counter

Any prescription regarding sexual /reproductive health should be free!

PATIENT SURVEY

It is very friendly & makes me feel safe

Can help people when they need to

The health center is a very good place to go if you feel bad or need someone to talk to

Maybe have more opportunities to work here

That they are very good, they put a lot of love into what they do, for me they were a help

They make sure all students are aware of their free programs and resources and confidentiality.
