Task 2 – Electrical and Mechanical Equipment Bid Specifications and Preliminary Design

Mechanical engineering and electrical engineering to tie the new well into the existing distribution and control system.

Electrical Design

A sub-consultant to Kleinfelder, Chase Electrical, Inc., will develop the electrical plans to tie the new well (pump) into the existing electrical feed of the existing well. The pipeline will incorporate backflow prevention devices, valves, and suitable devices required for connections to existing systems. The pipeline is assumed to be 6-inches or less in diameter, constructed of conventional materials (steel, ductile iron, PVC, or HDPE), buried less than 5-feet deep, and constructed using open-cut installation methods. Applicable technical specifications and following drawings will be prepared:

- M-01 – Pipeline Plan and Profile
- M-02 – Pipeline Details

Task 3 - Bid and Pre-construction Support

During this phase Kleinfelder shall:

- Provide a project bid schedule in consultation with the City. Unit price bid items will be identified to allow field adjustments based on actual subsurface conditions encountered during drilling of the well.
