3-1-105 PURPOSE

(a) It is the intent of the City Council in adopting this chapter to provide a comprehensive method for the identification and abatement of public nuisances within the City to protect the health, welfare and safety of residents and to promote the maintenance of real property to improve the livability, appearance and social and economic conditions of the City. Public nuisances can create visual blight or lead to neighborhood decline, causing detriment to surrounding properties and depreciating the value of those properties. In addition, as to vacant properties and abandoned, unsecured or partially constructed buildings, the City Council finds that such properties and buildings represent threats to public health, safety and welfare because they invite trespassers, represent fire hazards, can become harborages for vectors and rodents, can become littered or dumping ground or can encourage criminal activity because the property is unsupervised.

(b) Provisions of this chapter are supplementary and complementary to all other provisions of the San Leandro Municipal Code, state law, and any law cognizable at common law or in equity, and nothing herein shall be read, interpreted or construed in any manner so as to limit any existing right or power of the City to abate any nuisance or initiate any action provided for by law.

3-1-110 RESPONSIBILITY FOR PROPER PROPERTY MAINTENANCE

(a) Every property owner is required to maintain such property in a manner so as not to violate the provisions of this chapter and such owner remains strictly liable for violations on such property regardless of any contract or agreement with any third party regarding such property or of the identity or relationship of any party responsible for creating the violation. Every successive property owner who fails to abate a continuing nuisance is liable in the same manner as the property owner who created the nuisance.

(b) Every occupant, lessee, tenant, or holder of any interest in property, other than as owner, is required to maintain such property in the same manner as is required of the owner, and the duty imposed by this section on the owner thereof shall in no instance relieve those persons referenced from the similar duty.

ARTICLE 2. NUISANCES

3-1-215 COMMERCIAL AND MULTI-UNIT PROPERTY MAINTENANCE

(a) The commercial and multi-unit property maintenance requirements of this section apply to commercial property and residential properties containing more than four units, in addition to the requirements in all other sections of this chapter. Commercial property includes any property that is used or intended to be used, for commercial business activities, including, but not limited to, stores, office buildings, industrial property, medical centers, hotels, malls, retail stores, shopping centers, warehouses, and automotive garages.

(b) The City Council finds that commercial and multi-unit properties can constitute public nuisances when the maintenance of improvements is not performed in a coordinated and uniform manner. The requirements and standards specified in this section are designed to prevent such projects from becoming public nuisances due to visual blight, safety hazards and other blighting conditions.

(c) Persons owning commercial and multi-unit property shall identify a person authorized and responsible for property maintenance activity. Such person may be the owner or a property management firm. Each multi-tenant commercial shopping center property and multi-unit property shall be posted with the name, address, and 24 hour contact phone number

3-1-220 VACANT LOT MAINTENANCE

The vacant lot maintenance requirements of this section apply to all properties that are undeveloped in addition to the requirements in all other sections of this chapter.

(a) The City Council finds that vacant lots that are undeveloped, poorly maintained, and open to the public can significantly and adversely affect the general welfare of the citizens and property values within the community by reason of the property owner's failure to adequately secure and maintain the lots. Vacant lots overgrown with weeds and vegetation or accumulated with debris, trash, junk, discarded items, or other materials constitute a public nuisance that adversely affects the public health, safety, and general welfare of the City. The requirements and standards specified in this section are designed to prevent such lots from becoming public nuisances due to visual blight, safety hazards and other blighting conditions

(b) All property owners of vacant lots shall designate a local contact representative with full authority to act on behalf of the owner for all purposes of this section. - (5) Fencing shall be non-view-obscuring so as to provide clear and open visibility of the vacant lot and shall allow adequate site distance at driveways and intersections as determined by the City Engineer.
- (6) Fencing around vacant lots 5,000 square feet or more in size must be provided with a gate to allow access to the vacant lot for emergency services.
- (7) Fencing shall be maintained in good condition at all times.

The Community Development Director may approve alternative methods of securing vacant lots provided they are at least as effective in achieving the intent of the requirements of this section.

Any private property, or use of private and/or public property found to be maintained in violation of the forgoing sections is hereby declared to be a public nuisance, and such violation shall be abated in the manner provided in Chapter 1-12.

CHAPTER 4-11
NOISE

§ 4-1-1100 SHORT TITLE.

This Article shall be known and may be cited as the "Noise Ordinance."

§ 4-1-1105 POLICY AND PURPOSE.

It is hereby declared to be the policy of the City of San Leandro, in the exercise of its police power, to protect the peace, health, safety and general welfare of the citizens of San Leandro from loud and unreasonable, unnecessary, or unusual noises which are prolonged, unusual, annoying, disturbing and/or unreasonable in their time, place and use and which are a detriment to public health, comfort, convenience, safety, general welfare and the peace and quiet of the City and its inhabitants. It is the intention of the City Council to control the adverse effect of such noise sources on the citizens by prescribing standards prohibiting detrimental levels of noise and by providing a remedy for violations. The provisions of this Article and the remedies contained in this Code shall be cumulative and are not intended to replace any otherwise available remedies for public or private nuisances, nor any other civil or criminal remedies otherwise available. In addition, the regulations contained herein are not intended to substitute for any noise analysis conducted as a part of the

City's environmental review process for discretionary permit approvals, nor is it intended to limit more strict noise control requirements for discretionary permit approvals should more strict measures be found to be necessary in order to maintain noise levels that are not detrimental to the health and welfare of the citizens of the City.

Among the unacceptable noise sources identified in the City's General Plan are mobile sources such as airplanes, commuter and freight railroads, and highway traffic and other sources which are regulated exclusively by the Federal or the State Government. While in most instances the City may not intervene to address these problems directly, it is the strong policy of the city to work with responsible government agencies and elected officials to reduce the real and damaging effects of these noise-producing activities on the quality of life of the City's residents.

§ 4-1-1110 GENERAL PROHIBITION.

- (a) It is unlawful for any person, as defined in Section 1-14-100(h) of this Code, to make, continue, or cause to be made or continued within the limits of said City, any disturbing, excessive or offensive noise which causes discomfort or annoyance to reasonable persons of normal sensitivity, including loud, unreasonable, unusual, penetrating or boisterous noise, disturbance or commotion which annoys, disturbs, injures or endangers the comfort, repose, health, peace and quiet within the limits of the City, and the acts and things listed in this chapter, among others, are declared to be loud, disturbing, injurious and unreasonable noises in violation of this Chapter, but shall not be deemed to be exclusive.
- (b) The characteristics and conditions which should be considered in determining whether a violation of this section exists include, but are not limited to, the following:
 - (1) The level of the objectionable noise.
 - (2) The level of the ambient noise.
 - (3) The proximity of the noise to residential property.

- (4) The nature of the zoning of the area from which the noise emanates and the area where it is received.
- (5) The population density of the area.
- (6) The time of day or night.
- (7) The duration of the noise.
- (8) Whether the noise is recurrent, intermittent, or constant.
- (9) Whether the noise is produced by an industrial, commercial, or noncommercial activity.
- (10) Whether the nature of the noise is usual or unusual.
- (11) Whether the origin of the noise is natural or unnatural.

§ 4-1-1115 DISTURBING, EXCESSIVE, OFFENSIVE NOISES — DECLARATION OF CERTAIN ACTS CONSTITUTING.

It is the intent of this Article to prohibit all loud, unreasonable, unusual, penetrating or boisterous noise, disturbance or commotion which annoys, disturbs, injures or endangers the comfort, repose, health, peace and quiet within the limits of the City except those specifically exempted by Section 4-1-1120 and those permitted under an exception permit issued pursuant to Section 4-1-1125. Notwithstanding any other provisions of this Article, the following acts, which are not in any way exclusive, the following activities, among others, are declared to be disturbing, excessive and offensive noises in violation of Section 4-1-1110:

- (a) **Noises by Animals.** The permitting, by any person having charge, care, custody, or control of any animal, of such animal to emit any noise by any frequent or long-continued noise, which causes annoyance or discomfort to a reasonable person of normal sensitiveness in the vicinity. For the purposes of this subsection, the animal noise shall not be deemed a disturbance if a person is trespassing or threatening to trespass upon private property in or upon which the animal is situated or if the noise is for any other legitimate cause, such as someone teasing or provoking the animal. The scope of this subsection is intended to be and shall be interpreted to be broader than any similar prohibition set forth in Section 4-11-435 of this Title.
- (b) **Construction-related Noise Near Residential Uses.** Construction work or related activity which is adjacent to or across a street or right-of-way from a residential use, except between the hours of 7:00 a.m. and 7:00 p.m. on weekdays, or between 8:00 a.m. and 7:00 p.m. on Sunday and Saturday. No such construction is permitted on Federal holidays. As used in this Article, "construction" shall mean any site preparation, assembly, erection, substantial repair, alteration, demolition or similar action, for or on any private property, public or private right-of-way, streets, structures, utilities, facilities, or other similar property. Construction activities carried on in violation of this Article may be enforced as provided in Section 4-11-1130, and may also be enforced by issuance of a stop work order and/or revocation of any or all permits issued for such construction activity.
