Parks and Open Space

Port of Oakland Economic Impact

98,000 Jobs

Supported by Combined
Port Activity

\$970 Million

State & Local Taxes
Generated

\$7.6 Billion

Total Personal Income &
Local Spending

OAK by the Numbers

- **Two Passenger** Terminals
- **29 Aircraft Gates**
- Served **13.4 million passengers** in 2019
- **242,000 aircraft takeoffs and landings** in 2019
- **Two major all-cargo carriers:** FedEx & UPS
- **9,000 direct jobs** are generated
 - 1,435 Direct Jobs in San Leandro

Aviation: Projects

Road to Recovery

- Airport is at 83.3% return to pre-pandemic passenger traffic levels seen in 2019.
- Passenger Commodity Upgrades & Terminal Enhancements
 - T2 Security Exit Project
 - T1 Ticket Counter Refresh
 - New Concessions Program, including 16 new retail storefronts!
 - T1 & T2 Restroom Renovation Project

Terminal Modernization & Development

PREPARING FOR THE FUTURE

- Modernized existing terminals to improve operational efficiency and passenger processing functions.
- A new passenger terminal, with up to 16 new gates.
- Enhanced amenities and passenger processing and servicing areas.

All Project Materials and Information
Available at:

OaklandAirport.com/TerminalDevelopment

- 177,000 Postcards Sent Out
- 90-day CEQA Comment Period
- 16 Ads in Newspapers and Online Sites
- 9 Hard Copies at Libraries
- 4 Community Meetings

Environmental Initiatives

Zero Emissions Infrastructure for EV Charging, Pre-Conditioned Air and Ground Power

Bus Fleet Electrification and Charging Stations

Addressing Sea Level Rise and Groundwater Intrusion

Sustainability Management Plan

Airport Carbon Accreditation

On-site renewable power generation and 12kv loop for power reliability

Green Concessions Program for composting and increased waste diversion

Aircraft Fueling Facts

Types of fuels dispensed to General Aviation (GA) Aircraft at OAK's North Field

- **Sustainable Aviation Fuel (SAF)** is a lead-free fuel that reduces particulate emissions by up to 50%.
- **Jet A** which is another lead-free fuel used for turbine engines, such as jets and turboprops.
- **100 Octane Low-Lead Aviation Fuel "AvGas"** contains half as much lead than the previous fuel, 80 Octane (2 ml/GL), which has been phased out.

Cargo & Commercial Aircraft do not use leaded fuel

Fueling Facts @ OAK

Non-Leaded SAF or Jet A

99% of fuel dispensed to OAK's GA Community

Leaded AvGas

0.65% of fuel dispensed to OAK's GA Community

AvGas has been on a steady decline for two decades at OAK

In 2022 the FAA announced the **EAGLE Initiative** to safely eliminate the use of leaded aviation fuel by the end of 2030.

In October, the FAA and EPA announced they would draft new regulations to address lead emissions by creating new fuel standards to reduce or eliminate lead emissions

Noise Abatement Program

Information Signs

**Noise Abatement
Procedures
In Effect**

Airport Noise Management Office

- Quarterly Noise Reports
- Pilot Education
- Community Advisories
- Land Use Planning
- Preferential runway programs
- Airport/Community Noise Forum
