Decision Point	Rules Committee Feedback (February 25, 2026)
Decision #1: Type of hybrid participation at City Council meetings Staff recommended continuing to use two-way audiovisual platform for hybrid public participation. The City Council could choose telephonic participation instead.	• Support for audiovisual platform (i.e., Zoom, Teams, etc.) • Consider landline telephone as backup call-in
Decision #2: Disruption policy Staff requested the Rules Committee provide feedback to staff on the draft disruption policy for City Council meetings.	• Support for draft policy as presented • Be clear that meetings will resume if access is restored before 1 hour
Decision #3: Implement hybrid public participation for all legislative bodies? Staff recommend taking no action at this time, as it could require additional expenses for the City to do so.	• Supportive of staff’s recommendation to take no action at this time regarding Boards and Commissions • Interest in hybrid public participation for Council standing committee meetings • Requested additional information on potential costs
Decision #4: Language access policy Staff recommend the use of no- to low-cost solutions and requested Rules Committee feedback on the language access policy.	• Support for draft policy as presented • Support for no- and low-cost solutions for translation • Look to other local agencies for proven, low-cost options (School District, etc.)
Decision #5: Simplifying public comment Staff sought Rules Committee input on whether to rely on prior subcommittee comment; or continue taking comment at both levels (committee + City Council).	• Support for continuing to receive comment at both levels
Decision #6: Authorize members of eligible bodies to be fully remote? Staff recommended taking no action at this time, as it could require additional expenses for the City to do so.	• Supportive of staff’s recommendation to take no action at this time regarding Boards and Commissions; but interested in members participating remotely for Council standing committee meetings • Requested additional information on potential costs

MEETING DISRUPTION POLICY

SB707 requires the City Council adopt a meeting disruption policy to address procedure in the event of a technological disruption such as an internet outage.

The proposed policy requires a recess of at least one hour if service is disruption. The meeting may resume before the one hour has finished if service is restored, or after the one hour if certain findings are made.

LANGUAGE ACCESS POLICY

Under SB707, the Council is required to determine efforts the City will take to perform outreach to underrepresented groups. The proposed policy describes the manner in which the City will promote participation in public meetings as well as its strategy for providing translated meeting agendas as required by law.

RECOMMENDATION

Staff recommends the City Council adopt the proposed Resolution that approves:

- 1) The City Council Meeting Disruption Policy; and
- 2) The City Council Meeting Language Access Policy
